

MILLA&MILLI

*Milla&Milli is a  
celebration of design,  
a proclamation of  
love and an ode to  
Mother Nature, all  
joined together into  
astonishing pieces of  
solid wood furniture.*

HOMESCAPES  
*like no other.*

THE BLUEPRINT  
*of creation*

*Imagine a spectacular scenery. One of Mother Nature's works of wonder, presenting itself in all its splendour, filling you with awe and inspiration. A vista you could look at all day, every day, admiring its beauty, pondering the time and forces it took to create it. A landscape you would like to call home.*

THE SPARK  
*of ingenuity*

A surreal landscape featuring a waterfall in a lush green canyon, a rocky beach, and a modern metal shelving unit on the right. The waterfall is the central focus, cascading down a mossy cliff. The surrounding cliffs are covered in vibrant green moss and lichen. The foreground is a dark, rocky beach with smooth, dark stones. On the right side, a modern, minimalist metal shelving unit with three shelves and a curved base stands on the beach. The overall atmosphere is serene and majestic.

*Now envision having a similar feeling looking at a coffee table or a bookcase. Envision a beautiful homage to nature so masterfully crafted that you can't help but marvel at the creativity and effort behind it. A piece so exquisite it feels like Mother Nature talks thru it in her soothing voice that brings you joy and serenity.*

THE REBIRTH  
*of home*

*It is time for a wondrous unification,  
where dreams merge with reality, where  
indoors embraces outdoors and works of  
nature blend with works of men.*

*Welcome to the Milla&Milli home,  
a place like no other.*

# ETERNEL

*shift the paradigm.*

*Designed to amaze you every time you lay your eyes, or your fingers on it, the Eternel collection is our newest award-winning contribution to the world of modern designer furniture.*

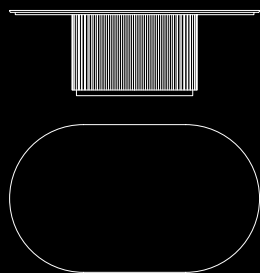

*Like the bark enveloping a tree, the meticulously crafted slats embrace the base and are jointed in a seamless fashion to present a beautiful pattern. Velvety marble and dark steel elegantly join in to create a real triumph of original thinking and superior craftsmanship.*

*We see Eternel as our heartfelt love letter to the might and beauty of solid wood. One that will last forever.*

# BLOOM

*an ode to nature.*

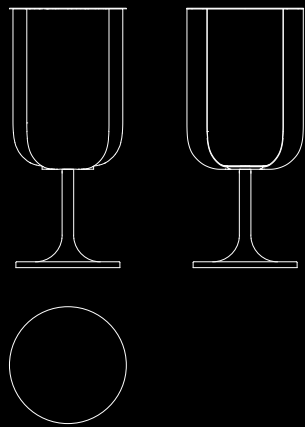

*Bloom is collection celebrating nature that blurs the lines between art and furniture. Bloom is flowers just sprung from the earth. Bloom is layering, curved volume lines, dim color palette, and surfaces begging to be touched; an intrinsic harmony of fluidity, sensuality and expression through materials. Bloom is solid walnut petals, immaculately assembled to exhibit the most elegant flow of annual growth lines; an embrace of a dim interior leaving merely a peekhole to see the firm metal structure. Bloom is the color black complementing smooth metal textures while contrasting the warm walnut tones. Bloom an upside-down perspective of the blossoming nature, with sliding doors and eternal shine of sahara noir black marble, devoured by all senses.*

# WAVES

*fine-tuned to perfection.*

*Waves collection embodies that rare moment when nature, design and craftsmanship converge to create something truly unique. Something that resides in the space between inspiring art and contemporary designer furniture.*

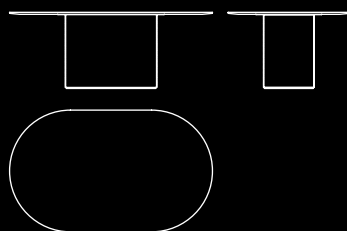

*The hypnotic, undulating texture of the surface creates a light-and-shadow play that is hard to ignore. We've been told it evokes various associations – deep water waves, furrows in fertile soil, purity of Zen gardens, even vinyl records – everyone is called to find their own.*

*And that is just what it's meant to do: to call upon interaction and invite you to a moment of meditation by filling your space with peace.*

The origin of  
*beauty*

# A CELEBRATION *of design*

*We truly live&breathe design. We love it, respect it, encourage it, promote it. We put it at the forefront of everything we create and with the help of meticulous craftsmanship, we build our story through it.*

*And the „master builders“ are, of course, our designers. Doing what they love and loving what they do, they keep matching the highest expectations of Milla&Milli customers. Not the ones to meddle with trends, they never let up in their pursuit of fresh and original ideas.*

*Meet our leading designers, Jelena Lukac Kirš and Jakov Šrajer, and the company's art director, Maša Vukmanović.*

## A PROCLAMATION *of love*

*Milla&Milli started out as a brainchild of two artlovers; a shared dream of two souls in love with design, wood and each other. And to this day, that love and passion is still clearly embodied in every masterpiece we create.*

*Not the ones to talk much about themselves, our owners prefer to lead by example and leave the spotlight to our amazing collections.*

*Meet Ksenija and Ivić Pašalić, two halves of one Milla&Milli heart and the driving force behind everything you have seen and read so far in this catalogue.*

# AN ODE

## *to Mother Nature*

*We consider ourselves as doers first, talkers second. So, our ode isn't one of words, but of heartfelt and decisive action. And one you are invited to join. Our pledge is to create new life, to plant a new tree for every piece of furniture you buy. Thus, the park forest growing around our facilities stands as a living and breathing reminder of our shared mission — to protect and respect our Mother Nature.*

*Our actions don't stop there, as we also practice the „no log left behind“ policy, using every scrap of raw material for various products in our mother company. Highest ecological standards in all aspects of our business are not just something we do, it is what we truly believe in.*

# A CREATION

## *like no other*

*We are blessed to have direct access to finest Croatian wood, allowing us to create exclusively with solid wood. Thus, we are encouraged to explore and push the boundaries of what can be done in the world of designer furniture.*

*This uncompromising approach has quickly earned us international recognition as pioneers and a place at the most prestigious fairs and design exhibitions.*

*Listed below, you will find a list of numerous awards our products have won over the last years, with many more yet to come.*
